Hyderabad,Telangana,500060

OBJECTIVE

Aspiring Computer Science Engineer with a strong foundation in software development, algorithms, and problem solving. Currently seeking opportunities to join a dynamic team where I can further develop my skills and grow as a professional.

INTERNSHIP EXPERIENCE

Oasis Infobyte | Web Development Intern [Live](#)

February 2025 - March 2025

- Collaborated with the development team to design, build, and maintain responsive and user-friendly websites. I was involved in both front-end and back-end development tasks using technologies such as HTML, CSS, JavaScript.
- Worked on real-world projects under the guidance of senior developers, gaining hands-on experience in web technologies.

Tech Stack: HTML, CSS, JavaScript, React.js

SKILLS

Programming : C, Java, Python

Frontend Technologies: HTML, CSS, Bootstrap, JavaScript

Databases : RDBMS, SQL

Operating Systems : Windows, Linux

Technical : Git, GitHub, SDLC, Tableau, Power-Bi

EDUCATION

CMR Institute of Technology, Hyderabad

2022 - 2026

- B.Tech - Computer Science and Engineering-CGPA-7.5

Hyderabad, Telangana

Narayana Junior College, Hyderabad

2020 - 2022

- MPC - 89%

Hyderabad, Telangana

PROJECTS

1. Temperature Converter [Front-End] [Live](#)

- Created an intuitive temperature converter tool enabling fast, accurate conversions between Celsius, Fahrenheit, and Kelvin. Optimized for user-friendly interface and seamless performance.
- Crafted a clean, intuitive design built with HTML and CSS, making it easy for users to input values and view converted temperatures instantly.

Tech Stack: HTML, CSS, Bootstrap, JavaScript.

2. Portfolio [Dynamic - Front-End] [Live](#)

- Demonstrated a wide range of skills, my portfolio highlights innovative solutions, successful project execution, and a commitment to delivering high-quality results across diverse industries.
- Showcased a blend of creativity and technical expertise, my portfolio illustrates problem-solving abilities, successful collaborations, and the delivery of impactful, client-centered solutions.

Tech Stack: HTML, CSS, Bootstrap, JavaScript.

3. Food Munch Website [Static - Front-End] [Live](#)

- Designed and developed a responsive food-themed website that showcase restaurant offerings in an engaging format and consistent styling to ensure seamless experience across devices.
- Created a dynamic website for Food Munch that enables users to browse menus, view food details, and place orders efficiently. The website design focuses on simplicity and seamless navigation for the best user experience.

Tech Stack: HTML,CSS, Bootstrap.

ACHIEVEMENTS

- Engaged actively in **CodeChef** coding challenges, demonstrating consistent commitment to complex codes [Link](#)
